

## How to Use Team's Feature

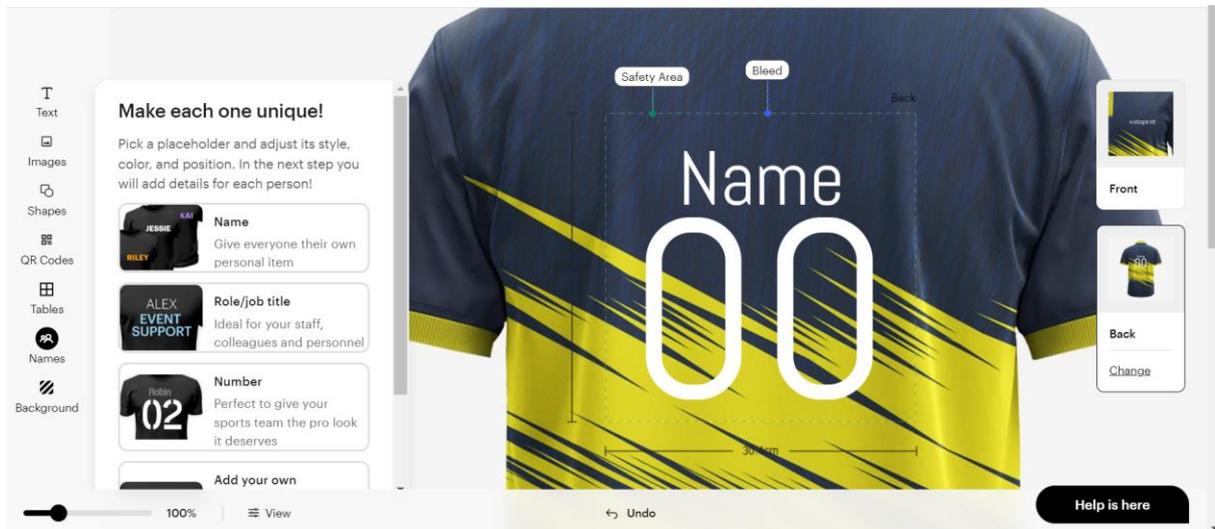

1. Upload your Teams/Business/Brand logo in the front customisation area

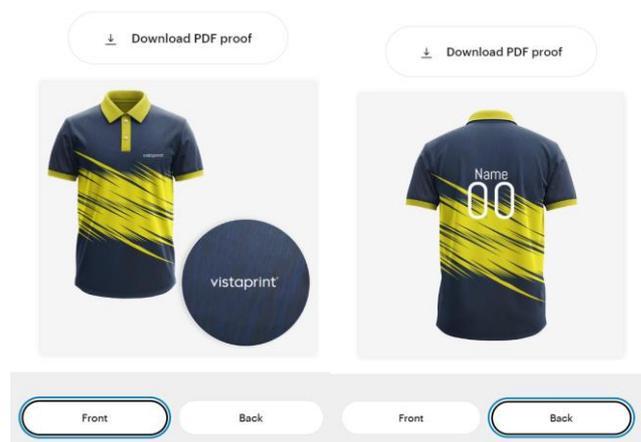

2. Choose Back customisation Tab. On the Left-hand side of the studio click on the “Names” tab to see the Team feature

- Choose the placeholder and finalise its position on to your Jersey. You can choose between Name, Number, Role etc

- Preview your placeholders by clicking the Preview Tab and verify its position. You will get to add Names of your team in next step

- Add your team details in the next tab all at once including size.

#### Add group details

Make it unique by adding details for each person.

### Review your design

Take one last look at your design and check the following:

- ✓ The information is accurate and spelled correctly
- ✓ The text is legible and contrasts against the background
- ✓ The images are clear and don't appear blurry
- ✓ That nothing is overlapping or too close to the margins
